As tough as old boots...

If you own a Swedish car, it can't have escaped your attention that it's a vehicle which is built to last a very long time.

Maybe it was the designed-in longevity that seduced you into buying the car in the first place. More likely it was the combination of comfort, safety, performance and fine value offered by both Saab and Volvo. We at T E Motor Engineers understand as we share your passion for these Scandinavian masterpieces.

However, we also recognise that even the toughest cars on the road sometimes need a little TLC, and that to provide this TLC at main dealer costs is rather more than the typically prudent Saab or Volvo owner may wish to pay...

By bringing your beloved Swede to us for servicing or repairs, you can be assured that your car is in very safe hands.

Our labour rates are typically half of those you will find at most main dealers and all work will be carried out by competent technicians using genuine Saab and Volvo parts. Even your manufacturer's warranty will be entirely unaffected.

There is no catch. If you want work carried out on your car to an exceptionally high standard but don't wish to pay main dealer prices, then call us today for a friendly chat about

your requirements.

Whether you drive a classic Saab 900 or a new Volvo S80, we are confident that you won't find better value or service.

As cheap as chips...

Some people would maintain that the word "cheap" has negative connotations; they would say that it is associated with the word "nasty", however, we would argue that this is unkind to cheap - we'd rather like to think that after visiting us for a service or repairs, you will forever think of cheap as a word that describes fantastic value and meticulous attention to detail.

Some of the "cheap" services that we offer are listed below, whilst opposite you will find example prices of typical jobs. Whatever your requirements, contact us today for a quote that will make you more than cheerful.

- Scheduled Servicing
- All Repairs
- Exhausts and Tyres
- MOT Preparation
- Air Conditioning Servicing and Repairs
- TECH 2 and VIDA Fault Diagnosis
- Abbott Upgrades
- Engine and Gearbox Repairs
- Convertible Roof Repairs and Recalibration
- Collection and Delivery
- Loan Car (By Appointment)

And much more, phone for details.

Examples of typical prices:

Saab
Interim (6000 mile) service: from £86
Major (12000 mile) service: from £175
A/C recharge: from £75
MOT (including pre-inspection): from £65
Four wheel alignment: from £65
Head gasket replacement: from £425
Three part kit clutch inc. slave or cable: from £365
A/C compressor change: from £350
Volvo
Interim (6000 mile) service: from £125
Major (12000 mile) service: from £210
A/C recharge: from £70
MOT (including pre-inspection): from £65
Four wheel alignment: from £65
Head gasket replacement: from £495
Three part clutch: from £295

Don't forget, we only use genuine parts and we cater for all models of Saab and Volvo, old and new.

Getting here is a doddle; When approaching from Aylesbury, proceed through Waddesdon until you reach On Yer Bike (Ducati motorcycle dealership) on the right. Immediately after this there is a small road on the right hand side which is signposted for UBF Industrial. Take this road and follow the signs for Unit 2.

We look forward to meeting you.
